

Oh, Mommy this coming week is going to be something unusual, like last week but stronger. A lot of fears in the world are going to come out. A lot of things that were hidden are going to be revealed which in a very short time comparatively will throw the world, at least most of the world shall I say, the so-called civilized world into a great panic. Israel will be

threatened. Things will happen in Israel and still the greatest fear will be outside of Israel although threats against Israel will be very frightening. I can't tell you more – soon I'll be able to tell you.

One other point, more and more Sheker is going to be revealed and the people of the earth will become more confused and more violent. Again, I want to remind everybody, all my fellow Jews that whoever is with Hashem, Hashem will be with him or her and they will be saved.
