

The Reshoim are very agitated because they have a time limit that's quite soon, meaning months and not years, where Hashem will teach them and all humanity who is the King and Creator and Hakol Yachol of this world, the whole universe and everything beyond, all existence. And when they come in contact with Hashem's might they will die from the revelation of Hashem's true power. At the moment they are trying to race against time because planet x is very near with its whole solar system and they think they are going to use it as an easy way to destroy most of mankind. They think that they can use this obvious Shaliach of Hashem, this small solar system to do their evil for them. However, Hashem will destroy them with all the evil of the world and will save the good. All people, Jews and gentiles, that accept the Truth which is that Hakadosh Boruch Hu is The Hakol Yachol and evil has no place in the magnificent world that He is going to bring His people to. The Yidden, the true Yidden that stood at Har Sinai, the ones that will be alive at the moment of the great destruction and the Neshomas of the Yidden that are in Olam Habah will all live. And the next world will be built for them. The Goyim that accept the Truth will also be part of the next life in the next stage up but not in the same category as the Jewish Neshoma which has fought to preserve its closeness to and its complete tie with Hakadosh Boruch Hu.

All the years of Golus that we have been suffering through, all the Jewish blood that flowed freely at the hands of the Goyim, all the cries of the Jews in the concentration camps as they were gassed in the gas chambers all the cries of Shema Yisroel, all that magnificent loyalty of Am Yisroel to our beloved Hakadosh Boruch Hu throughout the whole Golus, those pearls of love and belief and sacrifice will be the base, the foundation of the whole world to come. There the Yidden will be the servants of Hashem directly. The righteous Goyim will serve us and we Am Yisroel will be without a Yetzer Hora completely, which will bring us even closer to Hashem and we will rise and rise in the greatest pleasure in all the worlds. There will be no greater pleasure to be found anywhere.

What I have said now is as far as my knowledge goes and even what I have told you doesn't accurately describe the absolute Simcha of what the Yiddishe

Neshomas will feel after the Bais Hamikdosh will be built again and we return to our rightful place.

We are going to go through a very hard time which will start very soon. Don't be afraid! I can't tell you that every Yid will live through it, but I want to assure you that every Yid whose life is cut short by the happenings of what is about to be will be saved and he or she will eventually be returned to life everlasting. Just don't be afraid and always be with Hashem. This is the main thing. Try to do all the Mitzvos with love and detach yourselves as much as you can from the world of Sheker.

What will happen in the near future will be much easier to deal with if we are not attached to the Gashmius world of Sheker and the Egel Hazahav. People who are attached to this superficial lie cannot really be waiting for Moshiach. Therefore, detach yourselves in your heart, in your way of living. Detach yourselves from the lies. The world outside only brings in troubles and superficiality that in the end becomes an Iron Mechitzah, Chas Vesholom, between the person and Hakadosh Boruch Hu.

To the Yid who minimizes the Gashmius to only what he absolutely needs to exist and fills his time with Davening and learning and doing other acts of kindness and generally going in the way of Hashem, his refined soul will have almost no Mechitzah between him and Hakadosh Boruch Hu.

So Am Yisroel get ready. It is coming very soon. One day it will just be upon us. The world is already a madhouse and it is going to get worse and when it gets to its lowest point where evil is exposing itself in the worst way. Then Hashem will bring the great cleansing and the world will become clean once more and all existence will rejoice and all the evil will be forgotten.
