

I am giving you a hard time, right? I wake up feeling confused. It's a mixture of being sad and being unbelievably excited and happy. Part of me that is sad pulls me down to the depths of depression and part of me that is happy brings me soaring to heavenly realms where I can visualize clearly the third Bais Hamikdosh and Moshiach himself.

I only can beg Am Yisroel please throw away all your superficial stupidities the things that are destroying your possibility of reaching Netzach, eternity, your Gashmius that has been trying to destroy Am Yisroel since the Yidden in the Midbar made the Egel Hazahav.

I am warning everyone that the Geula is coming very soon. Between now and then things will happen at such a fast pace that only those who can hold on to the Truth will be able to fully realize the depth of the meaning of what is happening. Cling to the Torah and Hakadosh Boruch Hu, The Hakol Yachol the Creator of this earth and all words beyond. Never lose your tight grip on Am Yisroel's history from Adam Harishon to Avrohom Ovinu, Yitzchok Ovinu, Yaakov Ovinu, Yosef Hatzadik and the Shevatim etc. up to present times. Don't forget that we were created so that our souls would be everlasting and that we will in the future become Hashem's true servants without any doubt.

I can only say that those Jewish souls that achieve the greatest heights that they were brought into this world for, after going from generation to generation, being tested and being taught through trouble and Nisyonos and still reach those heights, their future /our future will be indescribable.... I don't have words to explain myself.... It will be undecipherable in its greatness, in its beauty, in its fulfillment and in its Simcha and what I said now doesn't even come close to what will be our reward. Don't forget my words. I don't even know how to express my fear and worry about Am Yisroel and the future of some of our brethren who are Davka going in a totally different direction.

I wish all my brethren a Gut Yom Tov and a Gemar Chasima Tova a year of the Geula Sheleimah
