

B"H we got up to Hashanah Rabbah. Many things have been happening in the world that should make people very frightened. It seems that Nature is attacking the United States of America in the worst way. I wonder if its nature or if its man himself who is making these attacks. Whatever it is, it was sent by Hashem to wake up the Jews of the United States to the fact that their relatively easy life in the United States of America is coming to an end. The non-Frum

American Jewry, at least up to a short time ago, was probably sure that the Gashmiusdik so-called 'good' life would last forever. However, this obviously is not going to be the case. The Frum Jews on the other hand still have the understanding, insight, intuition and perception that while we are in Golus we are supposed to live simply with the knowledge that we must be ready at any moment to pick up our bags and move to Eretz Yisroel. But after living over 200 years in the United States of America even the Frum Jews have almost lost this very important foundation of our Yiddishkeit. But now, my dear friends, I must tell all American Jews, religious or not that the time has come for you to realize that the party is over and it's time to return to our beloved Eretz Yisroel. The world is moving towards total chaos. There is going to be a great war that has been foretold in our Nevuas-prophecies and this war will only be the beginning of the havoc that is going to be reeked on the world as we know it, by Hashem, The Hakol Yachol. The time has come to start packing up and coming back finally to our homeland, not to the state that was created by evil people but to the land of Israel which Hashem gave to us as our birthright and our way to become His total servants for all eternity.

Every Jew should feel this in his heart and should know it intuitively whether he learns Torah or Chas Vesholom not. I am warning you Am Yisroel get out of Chutz Laaretz as soon as you can if you want to survive and greet Moshiach Tzidkainu. We are getting warning after warning. Don't ignore the so-called writing on the wall. I know it's very difficult but in in this way you prove to Hashem that you are with Him and you are willing to overcome your great fears in order to fulfil His commandments. Of course, I am not the one to interpret what Hashem wants us to do but many of the Gedolai Hador are saying the same things. It's over! The Gallus is over! It's time to come home! The Shechina has left Chutz Laaretz and it has gathered itself into the borders of ancient Eretz Yisroel. There is not that G-dly protection of the Shechina that went with us in to the Gallus and stayed with us all those years. Now there is no protection. There is no reason to stay. If you cannot financially make the trip or if you don't have enough Bitachon in Hashem to leave the comforts of your home and life in Chutz Laaretz that you built with Hashem's help then show Him that you want to do what He wants you to do by day and night begging Him with all your heart and soul to take you out of this bitter Gallus and bring you and your family to Eretz Yisroel where your true destiny lies.

I wish all my brethren a good Kvital and I bench us all that this year will truly be the year of the Geula Sheleimah and by this time next year I bench us all that we will be able to be Makriv Korbonos in the third Bais Hamikdosh. Gut Yom Tov
