## **More Proof Of Great Dangers**

Mommy, Boruch Hashem in Eretz Yisroel the week was quiet, but it wasn't quiet in every place in the world. With volcanos going off, terrible earthquakes, humongous sink holes opening up everywhere and even a meteorite that hit in Maryland leaving a large crater in the ground and burning fields. But here in Eretz Yisroel it has been relatively quiet. We are going into the last day of the Yom Tov of Pesach, Chag Hacheirus, and our world in the last week since the night of the Seder had many physical and political upheavals. The physical, at least some of them, I mentioned above. The political ones I will mention now which are the terrible difficulties in Europe with the masses of Arabs, Muslim and Christian, immigrants that are causing a tremendous crime wave in every country that they go to and because the Europeans themselves are beginning to feel like guests in their own land. In the United States the Americans are also suffering from these immigrants who are encouraged to flow over the borders into the United States even without any form of identification and this way they are bringing into the United States of America disease, crime and poverty (as if they don't have enough of that).

In many countries of the world war is raging and with it comes death destruction and poverty. The so called leaders of the world have made even stronger proclamations against freedom and for a new world order an order in which only the few elite rule without any similarity to democracy to the will of the people.

There is danger all around and this last week brought more proof of these great dangers which are total economic collapse in the whole world, world war three is

being threatened from every side and our children are being taken over by the government whether it be America, Israel, England or Europe, where ever they rule. They are forcing young children to be the opposite of what they are, boys to be girls and girls to be boys. You can even decide every day what you want to be and these laws and rules have become more entrenched this week by law. We are in danger from within and from without and planet X is definitely coming our way. So Mommy this week has been a week of revelation and of very difficult happenings. I feel the next two days, the last day of Pesach and Shabbos will also not be quiet. That's my feeling. What exactly will happen I don't know. I only feel that it will bring us closer, even much closer to the end game. What can I tell you? I am so happy on one side that the world that has become so threatening so evil basically might soon disappear and even though we will be very depleted in numbers of human beings still we will be in a world of Truth a world of Torah and Mitzvos that every Jewish heart and soul will desire to keep. What else can I say except a Gut Moed, a Gut Yom Tov, a Gut Shabbos to all Am Yisroel. I am sure that very soon Moshiach must reveal himself!
