

This past week was, I guess you could describe it as, gruesome and very scary. Next week starting with the coming of the lunar eclipse which is an unusually rare event of the planet mars so close to the moon that both mars and the moon are supposed to take on a reddish glow. It is a very frightening thing especially since mars is known for its mission of war in this world and the moon is a sign of Am Yisroel. The configuration of the moon and

mars is definitely a foreboding of war to come. A war that will bring the earth and its inhabitants into a new reality that will be very very difficult. Together with that Nibiru will make its appearance which will devastate the world even more.

We have been talking about this for a long time and it is soon to become a reality. The good part of all of this is that Moshiach will also be revealed during this time of hardship which will ease the suffering and bring the survivors to the Geula Sheleimah and the beautiful future that will come soon after these terrible wars and other heavenly events. I can't emphasize enough that the time has come for the world to change. There will be a great change in the way we live in this world and what we want from our lives. It is time to make a strong commitment to Hakadosh Boruch Hu and to vow our loyalty to Him no matter what. I don't think that most of the Jewish people will even begin to understand what I am saying nor will they want to dedicate their lives to strong awareness and loyalty to Hakadosh Boruch Hu and His Torah.

For those who do understand and who long for a world where Am Yisroel will constantly serve the Hakol Yachol you will in the end be the recipients of life eternal and will be infused with the greatest love and dedication to Hashem and His Torah which will bring unbelievable pleasure and satisfaction.

The next months will bring us all to a very difficult reality. I Daven every moment that every true Jew will realize the Truth and begin to live only to do Hashem's will. This is our only reality. This is our only pleasure and if you, Chas Vesholom, prefer the pleasures of the Guf - body then those desires will kill you in the worst way with the most suffering. I pray for all my fellow Jews that you will make the right choice.
