

I don't know what to say. I can only tell you that even though the southern front has calmed down and last night there were almost no missiles and this morning there were no missiles, still I am telling you that very soon, very soon there is going to be war, war and war beginning most probably in Eretz Yisroel and will spread all over the world. The time is coming very soon! The world will be covered

in almost every spot with war, a horrific war where millions will be killed in a comparatively short time, Shelo Neda, and cities, large cities will turn to dust. That will be very frightening. But that is only the beginning of the process that our world is going to go through until we finally see the Geula Sheleimah and accept the crowning of Moshiach by Hakadosh Boruch Hu.

I beg Am Yisroel again and again do Teshuva. Throw away the Egel Hazahav together with all technological toys and your obsession with cruises of all kinds and Gashmiusdik endeavors etc.

Come back to Eretz Yisroel because that's the only place that is going to be safe for Am Yisroel, the Jewish people to be at this time in history. It is about to happen. The world has become a dangerous place. The Shechina has left Chutz Laaretz and has come back to Eretz Yisroel. No nation of the world can destroy the nation of Hashem which is Am Yisroel. However, Hakadosh Boruch Hu will destroy all the other nations of the world and save His loyal nation, Am Yisroel. He will send Moshiach Tzidkainu to become our King from the House of Dovid and we will know that the King of Kings the Creator of all will give us, Am Yisroel His loyal followers, Netzach.

Get ready! I can hear already the rattling of the sabers, which in our generation would mean the missiles. I can feel the darkness descending on the whole world. I can imagine only partially the revenge that will be meted out to the nations of the world with the exception of Am Yisroel for going against Hakadosh Boruch Hu the Hakol Yachol and He will destroy them instantly and together with that much of the world will be destroyed and that will be only the beginning of the wrath of Hashem against the nations of the world who have for so many years persecuted in the cruelest way His chosen people. Am Yisroel save yourselves and your families by doing complete Teshuva and coming back totally to your Father in Heaven and accepting upon yourselves all that is written in His Heliger Torah.
