

We are coming to a very frightening and difficult point in the history of this world. We are still living a life of much Gashmius even though most of us do not have the money to pay for it. Most of the world population is deeply in debt or just plain without the basic needs to survive. On one hand you see and you read about lavish parties for charity and you hear about all kinds of people taking cruises or vacationing in exotic faraway places where in today's day and age you can

also find quite easily some sort of Kosher restaurant and a Chabad shul to daven in. But most of the people are struggling not to sink into oblivion, Chas Vesholom.

We are living in the generation that, Be'ezras Hashem, will greet Moshiach. The world we live in now is a world of lies, of tragedies, of terrible and confusing sadness mixed with a superficial and even depressing type of so called happiness expressed through loud and piercing music that is even invading our Frum musical world and superficial entertainments to stop ourselves from thinking too deeply.

Why don't we want to think deeply? Because we might have to give up our imaginary Gashmius, our imaginary goals in life that have become so similar to the Goyim. From this situation there is beginning to appear groups of Frum Yidden who are waking up to the fact that we have taken our Yiddishkeit in the wrong direction. We are trying to live as Yidden close to Hashem with foreign ideas and foreign goals mixed in and directing our lives. Judaism is not just a religion. To be a Jew, a Yid you have to accept it as a way of life from when you go to sleep at night until you wake up in the morning, all day long twenty-four seven. The superficial entertainments of the Goyim, the so-called culture of Greece and Rome, everything from the Goyisha world is Assur except if it goes along meticulously not only with Jewish law as it is written but also with the Pnimius of Yiddishe life.

We have to separate ourselves from the world, especially in Medinas Yisroel, from the Goyisha way of life, from the non-Frum way of life. Whenever a Yid thinks he can somehow be part of the Goyisha life and still keep his own princely identity he will learn he is very mistaken. He will for sure fall into the nothingness of the Goyisha world. The only way Yiddishkeit has survived since Avrohom Ovinu until today is because every generation had its martyrs that were willing to live as Jews completely separating themselves from the non-Jewish world even though it meant tremendous financial difficulties in order to be totally loyal to the Hakol Yachol, Hakadosh Boruch Hu. There were other Yidden that became examples of the Yiddishe world because they gave their lives Al Kiddush Hashem as examples for all the generations, that you can't mingle with the Goyim and expect eternal life.

The Jewish Neshoma is eternal! I repeat and repeat it. It is eternal! But not every Jew that is called a Jew is a real Jew and again I repeat you won't know who the real Jews are until

Moshiach is here. However, we can by people's actions think that we know who is a real Jew but we cannot be sure of our understanding of such a hidden Truth. I repeat Hashem created this world to help the true Jewish Neshomas develop into something so great that it is beyond imagination. He created the Yetzer Hora for this. The Nochosh that in less than 24 hours after man was created convinced man and his wife to sin and go against Hashem's word. This began the history of mankind and his fight against evil. We have come to the point where we have gone down lower than any other generation, but soon Hashem Himself will pull us up higher than any generation has ever been and a new stage of creation will begin.

The need for the world as we know it will disappear. The bad Goyim and remnants of the Erev Rav the Jews who are not really Jews will be destroyed. Only the righteous Goyim and the true Jews with Jewish Neshomas will remain but that's comparatively very few. We will see Creation in a totally different way. We will understand how huge, deep and important our Kesher with Hakadosh Boruch Hu really is. We will be filled with love, a love that transcends all the stupid and superficial ideas that many Jews have taken from the Goyim about what the word love really means. We will be united with our Creator physically spiritually and in every way.

Am Yisroel I beg you throw away your false gods! Become an Am Kadosh a Holy Nation. Stop acting like the Goyim! Dress in a very Tzniusdik way, men and women, not revealing your body or its form. Live for the right reasons, all of which is written clearly and exactly in our Torah and its commentaries. Take away from your life all the filthy romantic superficial lack of Kedusha that has entered our homes and is banging on the door of the Holy of Holies. Those who realize the Truth will certainly rise higher and higher with loftier and loftier achievements and those that go another way, Chas Vesholom, will disappear in the night, like eighty percent of the Jews in Makkas Choshech.

We are going rapidly towards Pesach. First, we go through Purim and I tell you that the world by the time Purim comes will be totally different. It will basically be unrecognizable. By the time Pesach comes, I am sure that most of the true Jews will have done Teshuva and Pesach should be a true Yetzias Mitzrayim. Choose if you want to be part of the twenty percent or part of the eighty percent. That's your choice. But it's your choice only up to a point which I will not explain. Ilu Hotzianu Mimitzrayim Dayenu.

I feel today, Erev Shabbos, without words to express myself. I feel not exactly depressed but I feel that we are on the verge of a huge revelation that will clearly define the unbelievable width, depth and height of the evil that has taken over the world. I know for sure that Hakadosh Boruch Hu won't desert us. He will save unconditionally every true Yiddishe Neshoma. But Mommy, you have no

idea what it is going to be like when The Hakol Yachol will reveal Himself in all His glory. He will show the Satan and all the evil of the world that He, Hashem, is the only Creator of this world that we live in, and will bring home the reality that He has allowed evil to develop up to the point that if it took one more step forward there would be no existence! At that point He is going to turn everything around and bring forward the good in all its glory which will illuminate with its radiance all of the darkness of the evil ones that think they can control not only Hashem, Chas Vesholom, but the whole universe and beyond.

The evil ones will soon be exposed completely, first by their own people who Hashem has used their own tactics to defeat, meaning putting one against the other. Hashem has created inside the evil ones a split which is an inner struggle between evil and evil to be the absolute rulers. Up to now the Reshoim have been using this method to destroy good and replace it with bad. Hashem is using their own method to destroy them. There will be a great war that will seem to be between evil and good but in reality, it will be between evil and evil and only after that will we see the heavenly bodies that have been sent by Hakadosh Boruch Hu to destroy most of the world as we know it.

How can I say to people not to be afraid when I myself who sees farther into the future than most people, am afraid? But remember and I keep repeating, every true Jew that stood at Har Sinai and said Na'aseh Venishma will be saved. Keep your minds on that and be close to Hashem always. Throw away your frivolous Gashmius that can only bring you to the entrance of Gehenom. Strip yourself of all this superficial Avodah Zora and come back to the true Yiddishkeit. I repeat most of the so-called Jews of the world are Erev Rav and this was foretold many years ago by our Tzaddikim. It is no surprise and its nothing new.

Get rid of all your false gods and come back to Hashem. Unfortunately for those of you who have been slaves to the Egel Hazahav for many years, it might even be to much for you to contemplate. You might feel bored without your modern toys that keep your minds occupied with nonsense but I beg you take strength and get rid of them. Don't let them rule your lives anymore and come back to the Truth which is the entrance to the Geula Sheleimah and all the indescribable

pleasures of the spiritual world of Hakadosh Boruch Hu which encompasses all of existence and which brings us to eternity.

We have just passed Tu B'Shvat and we are going into the time of Purim and then Pesach. I have said in the past that by Purim the world will be very different than it is at this moment and by Pesach I don't know exactly but I know that the world will be extremely different.

People say to me "But everything is the same." The birds are still chirping. The sun still shines. We still go to work etc. However, what has happened is that the world has turned into a horribly distorted place and at every stage of the descent into nothingness, we have just accustomed ourselves to the new reality. However we are at the point that we are arriving very soon at rock bottom and there will be nowhere to go but up, and all of those who don't understand, who don't want to understand that you can't turn what is forbidden by the Torah to become Halachicly permissible and you can't decide that everything that in the Torah is considered evil is really good, you can't let supposedly religious leaders who many of them have left in their hearts the true Yiddishkeit and have Paskened evil to be good and good to be evil. These changes are the most dramatic changes in all of man's history. However, those who seek out evil as their way of life feel that this is the truth, Chas Vesholom, but the real Truth is in the Torah. The only ones that can help make us understand the Torah are the true Tzaddikim and therefore most of humanity including probably most of the so-called Jews that exist today are really not in the right direction at all, nor do they want to be in the right direction.

Hakadosh Boruch Hu chose Am Yisroel from all the nations to be His people for eternity and therefore we are a very small nation but still the greatest in existence and our future is tied together as one with Hakadosh Boruch Hu, with the Hakol Yachol, with our Father our King our Everything. The real Yidden are going to realize the Truth and with Hashem's help we are going to fight our way back up to the level of understanding that the greatest accomplishment of life in this world is to realize that in order to achieve eternity we have to give up all the evil in our hearts, in our minds, in our existence and pledge total loyalty to Hakadosh Boruch Hu!
